

ECRED Q1 2026 LETTER

Blackstone European Private Credit Fund (“ECRED”)

Long-term performance. ECRED was built to deliver income focused returns at a premium to public credit across market cycles. Since its inception in 2022, the Fund has delivered annualized total net returns of **9.4%** (Class I, EUR)¹, outperforming leveraged loans, high yield and investment grade bonds by over **100bps** with less than half the volatility⁴. This consistency has been underpinned by private credit’s structural premium, with the importance of income reflected in ECRED’s annualized monthly distribution yield of 7.8%².

The first quarter saw heightened volatility across global markets driven by geopolitical turbulence and AI disruption fears. ECRED preserved investor capital against this challenging backdrop, delivering a **0.5%** total net return¹, outperforming leveraged loans and high yield bonds by **150bps** and **250bps**, respectively⁴. We believe that high current income coupled with lower leverage allowed ECRED to absorb the volatility-driven credit spread widening and unrealized mark-to-market. While we have also seen negative headlines surrounding private credit, ECRED continued to see strong support from its investors with positive inflows substantially exceeding redemptions in the quarter. This highlights the resilience of private credit, with ECRED remaining focused on its core objectives: high current income, disciplined underwriting and a defensively positioned portfolio.

Healthy fundamentals amid increasing dispersion. Asset quality and active portfolio management drive returns. ECRED’s **€4.4 billion** portfolio underscores its positioning: diversified across **235** issuers⁵ with an average private position size of 0.6%, **92%** invested in private credit³, and **93%** in first lien, senior secured debt³ with a closing loan-to-value of 39%⁶ indicating robust equity cushions.

Built from 2022 and underwritten for elevated rates and a higher inflationary environment, ECRED is reporting strong fundamentals as it matures. Private loans carry an average mark of **98.9**⁷ and interest coverage ratios of **2.4x**⁸, supported by lower rates and earnings growth. Private loans held for over one year have generated EBITDA growth of **16%**⁹ over the last twelve months – twice the broader European private credit market¹⁰. This reflects our disciplined underwriting: senior loans to high quality companies backed by top tier private equity sponsors and larger businesses that can offer greater resiliency. ECRED’s private companies have a median EBITDA of **€114 million**¹¹, **three times** larger than the broader market¹².

Strong fundamentals go hand in hand with rigorous downside risk management. **Less than 1%** of ECRED’s portfolio is marked below 85, validated by independent third-party firms and reflected in the NAV. We believe our robust valuation process allows us to proactively incorporate changes in portfolio company performance and market conditions.

Europe offers compelling investment opportunities. Geopolitical instability and energy market uncertainty present near-term risks, but Europe benefits from long-term tailwinds, including a resilient labour market, cooling inflation and increased fiscal spending. M&A activity has slowed, yet markets across the continent have proven resilient¹³.

ECRED invested **€575 million** in private credit over the quarter¹⁴ in what we view are high quality companies across international leaders and national champions, at an average loan-to-value of **36%**¹⁵. This environment can also create an attractive entry point for private credit. As uncertainty increases, spreads can widen, documents tighten and borrowers turn to the certainty of execution offered by private lenders. In the first quarter, private credit supported **70%** of European leveraged buyouts¹⁶, retaining its status as a key financing source. Equally, with a maturing portfolio, ECRED saw €90 million of repayments at par or above par in the first quarter, demonstrating the life cycle of private credit remains active even in more volatile periods.

Spotlight on software. AI has been an area of focus at Blackstone for some time. We expect dispersion in outcomes, with mission-critical platforms likely to prove more resilient. Our software exposure within ECRED reflects this view – centred on established businesses with leading positions in sub-sectors we consider more insulated from AI risk¹⁷. These investments have an average enterprise value of €3 billion¹⁸ at closing, underwritten at **36%** loan-to-value¹⁹ – providing significant cushions to our senior secured loans – and have delivered EBITDA growth of **18%**²⁰ over the last twelve months, outperforming the broader portfolio. As one of the largest investors in AI-related infrastructure in the world, we believe Blackstone is uniquely positioned to partner with sponsors and management teams to position our companies for an AI-enabled future.

Powered by Blackstone. Volatility can widen dispersion among managers. We believe underwriting discipline, portfolio construction and active credit management matter more than ever. ECRED benefits from the resources of Blackstone, the world’s largest alternative asset manager²¹, with 20 years of investing experience in European private credit and a dedicated 120+ Office of the CIO team supporting the full lifecycle of our transactions.

These capabilities shape how we manage the portfolio. During the quarter, ECRED strengthened its capital structure by increasing its available liquidity to over **€800 million**²², including undrawn leverage capacity and public credit investments. Over the past year, the Fund reduced its overall cost of capital by 15bps²³, while upsizing and extending maturities of its leverage facilities, enhancing ECRED’s ability to capitalize on new investment opportunities and drive returns for investors.

Looking ahead. Since inception, ECRED has delivered consistent, income driven performance, and we believe the opportunity ahead remains compelling. With the longest track record amongst peers²⁴, a high quality portfolio, robust liquidity and the scale of the \$1.3 trillion Blackstone platform behind it, we believe the Fund is well positioned to navigate today’s market and continue delivering a meaningful yield premium relative to public markets.

We thank you for your continued trust and support.

Endnotes

Note: Data is as of March 31, 2026 unless otherwise indicated.

- Inception date on October 3, 2022. Total return calculated net of fees and expenses and rounded to one decimal point. ECRED waived management and performance fees for the first 6 months of operations (to March 2023). Blackstone fully advanced fund expenses and organizational and offering expenses for the first 12 months (to October 2023) and, beginning in October 2023, provides discretionary expense support via a cap on such expenses that will be borne by the fund (currently 0.50% cap per annum on NAV), with the remaining being advanced by Blackstone. Upon expiration of the cap, ECRED will bear all deferred expenses in equal monthly installments over the following 5 year period. Please note, Blackstone has sole discretion on the cap amount and its duration, so it may be removed or changed at any time.
- Distribution yield is presented for the distributing class and reflects the current month's distribution annualized and divided by the prior month's NAV. We may fund such distributions from sources other than cash flow from operations, including sale of assets, borrowings, return of capital, or offering proceeds and although we generally expect to fund distributions from cash flow from operations, we have not established limits on the amounts we may pay from such sources.
- Based on fair market value as of March 31, 2026.
- As of March 31, 2026. "Leveraged Loans" is represented by Pitchbook LCD Morningstar European Leveraged Loan Index. "High Yield Bonds" is represented by the VettaFi Western European High Yield Index. "Investment Grade Bonds" is represented by the Bloomberg European Aggregate Bond Index.
- Please note that the total ECRED portfolio has 235 issuers: 157 private issuers and 82 public issuers (if issuers exist across both private and public portfolio they are not double counted).
- Reflects average closing loan-to-value of private credit investments, weighted by fair market value. Calculated as net debt through respective Blackstone Credit & Insurance loan tranche divided by estimated enterprise value of the portfolio company, at closing of the investment.
- Reflects average mark across private issuers, weighted by fair market value.
- Reflects average ratio of debt interest payments to last-twelve-month EBITDA (operating profit) for ECRED's private assets, based on latest available reporting data as of March 31, 2026, referred to as "interest coverage ratio". Current interest coverage ratios are calculated using base rates as of March 31, 2026.
- YoY LTM EBITDA growth as of March 31, 2026. Represents 43% of ECRED's private assets (and 40% of ECRED's total assets, inclusive of the fund's liquids portfolio).

AI risk categories reflect current views of Blackstone Credit & Insurance, based on a qualitative application of BXCI's AI risk scorecard, in conjunction with an assessment of the AI risk profiles of companies within each vertical. The scorecard evaluates potential risks to end markets, business models, and company moats.
18. Based on the enterprise value at close for each applicable investment. Includes all debt investments within ECRED's software portfolio and excludes both asset-based investments and public credit investments. Average enterprise value is weighted based on the fair value of total applicable investments as of March 31, 2026. The number is presented for illustrative purposes and does not reflect actual realized proceeds to ECRED or to the equity sponsor or the company, and there can be no assurance that realized proceeds received by Blackstone or any investor in a Blackstone fund will be increased as a result. Currency fluctuations may have an adverse effect on the value, price or income and costs of our portfolio companies and investments which may increase or decrease as a result of changes in exchange rates.
19. Average loan-to-value represents the net ratio of loan-to-value for each portfolio company in ECRED's software portfolio (as classified under the GICS Industry level) weighted based on the fair value of total applicable investments as of March 31, 2026. Includes all debt investments within ECRED's software portfolio and excludes both asset-based investments and public credit investments. Loan-to-value is calculated as the total net debt through each respective loan divided by the estimated enterprise value of the portfolio company at time of underwrite.
20. Includes all applicable debt investments in ECRED's software portfolio (as classified under the GICS Industry level) and excludes both asset-based investments and public credit investments. Amounts derived from the most recently available portfolio company financial statements have not been independently verified by ECRED, may reflect a normalized or adjusted amount, and are generally about 90 days in arrears.
21. Largest global alternative asset manager reflects Preqin data as of March 31, 2026, or as of latest publicly available company data.
22. Available liquidity is composed of cash and cash equivalents, excluding restricted cash, plus the amount available to draw upon across all credit facilities, net of limitations related to each respective facility's borrowing base, plus ECRED's liquid credit investments.
23. As of April 15, 2026. Represents the drawn margin of revolving and asset-based lending facilities, excluding arranging fees and other costs. Weighted average figures are based on commitment size.
24. Based on BXCI analysis of comparable Luxembourg-domiciled open-ended European private credit funds, as of the date of these materials.
25. Reflects unique GICS industries across the ECRED portfolio.
26. Reflects average mark across private issuers and public investments, weighted by fair market value.
27. Represents average monthly leverage as of March 31, 2026. Debt-to-equity ratio represents the ratio of total principal of outstanding debt to net assets. May employ leverage of up to two times total debt to equity, meaning ECRED will be able to borrow up to two euros for every euro of equity the fund owns.
28. Calculated as a percentage of floating rate leverage to total drawn debt amounts.

REWARDS	RISKS
<p>Blackstone, Blackstone Credit & Insurance ("BXCI")'s and the Fund's Scale, Expertise and Value Creation.</p>	<p>Blackstone's brand, operational expertise, experience in semi-liquid private credit funds and market positioning as a leading alternative asset manager coupled with the Fund's powerful network and deep in-house sector expertise means that we can be well positioned as a partner of choice and aim to enhance value for our investors and portfolio companies. The Fund provides access to the BXCI platform, one of the largest credit platforms globally with established European footprint.</p>
<p>Defensive Positioning, risk management, downside and inflation mitigation.</p>	<p>The activity of identifying, completing and realizing attractive investments is highly competitive, and involves a high degree of uncertainty. There can be no assurance that the Fund will be able to locate, consummate and exit investments, or fully invest its committed capital, that satisfy its objectives or realize upon their value. Size of platform does not guarantee future results. There can be no assurance that the Fund or any Blackstone fund or investment will achieve its objectives or avoid significant losses.</p>
<p>Diversification.</p>	<p>We believe the Fund can meet the needs of our investors through market cycles through being 100% senior secured (meaning that ECRED's loans have repayment priority in the event of a borrower's default) with 100% floating rate loans and a focus on downside mitigation and large performing companies in high conviction sectors. Blackstone takes an active approach to risk management, including seeking to provide a hedge against inflation; it applies extensive credit and sector analysis, focusing on the underlying credit fundamentals and assessing downside risk, to aim to optimize risk-adjusted returns.</p>
<p>Embedded Growth.</p>	<p>There can be no assurance that any of the downside control features will be successful. Capital is at risk and investors may not get back the amount originally invested. Risk management seeks to mitigate risk, including inflation risk, but does not reduce or eliminate risk and does not protect against losses. Persistent inflationary pressures and supply chain issues could affect our portfolio companies profit margins and impact the inflation-adjusted value of our loans. Past performance does not predict future companies profit margins and impact the inflation-adjusted value of our loans. Investing in Private Credit will expose an investor to credit risk (i.e. the risk of a borrower defaulting on a loan, as this would have a negative effect on the returns of the Fund). Because Private Credit can involve debt investments in non-investment grade borrowers, credit risk associated with Private Credit may be higher than other fixed income products.</p>
<p>Indicative Terms, Redemptions and Dividends.</p>	<p>The Fund provides diversification across geographies, sectors and strategies that can potentially mitigate risk, and result in higher returns.</p>
<p>Key Personnel.</p>	<p>The European private credit market can benefit from continuous growth, for example, we are observing an increase in private equity dry powder, with buyers increasingly opting for private lenders.</p>
<p>Key Personnel.</p>	<p>Your capital is at risk and you may lose some or all of your investment. Whilst the semi-liquid structure of the Fund can help protect the long-term value of the Fund's assets, an investment in the Fund is not protected and you may lose all of your investment. Redemption requests are expected but not guaranteed and are subject to early redemption deduction, quarterly limitations and certain specified restrictions set forth in the Prospectus. There is no assurance the Fund will pay distributions in any particular amount, if at all. Dividends are at the Board of Directors' discretion and are not guaranteed. Fees are paid out by the Fund, which will impact on the overall return of the Fund. Currency fluctuations may have an adverse effect on the costs of the product as a result of changes in exchange rates.</p>
	<p>Certain Blackstone professionals will not be dedicated to the management and operation of the Fund and/or they may perform work for other Blackstone business units and, therefore, conflicts are expected to arise in their time allocation. The involvement and role of the professionals may vary, including having no involvement at all. There can be no assurance that such professionals will be associated with the Fund throughout its life. In the event of death, disability or departure of key Blackstone professionals, the business and Fund performance may be adversely affected.</p>

Risk & Reward Disclosure (Cont'd)

Set out below is a summary of the rewards and associated risks of an investment in ECRED. This summary does not purport to be a comprehensive statement of all such risks and rewards and investors should refer to the Prospectus and KID of ECRED before making a final investment decision. See "Other Risk Factors" and "Important Disclosure Information" in this document for more.

	REWARDS	RISKS
Leverage.	The Fund may employ leverage or borrowings to advance investments or other activities. Leverage may at certain stages enhance returns from investments to the extent such returns exceed the costs of borrowings.	The use of leverage or borrowings magnifies investment, market, and certain other risks and may have a significant impact on returns and borrowing fees, resulting in the partial or total loss of capital invested.
Returns and Past Performance and Index Comparison.	This material includes information concerning the returns of the Fund and/or certain Blackstone-managed or advised investment funds.	Past performance does not predict future returns. There can be no assurance that any Blackstone fund or investment will achieve its objectives or avoid substantial losses. Indices are not formal benchmark but are disclosed for illustrative purposes to allow comparison of the Funds' performance with a well-known, widely recognized index. The Fund is not managed in reference to any benchmark index.
Themes and Trends.	According to Blackstone, recognizing significant market trends is essential to finding quality investment opportunities and achieving strong fund performance. This document includes opinions on current trends and themes.	Trends depicted herein are set out for illustrative purposes only. There can be no assurance that Blackstone will find any opportunities relating to the identified themes or that future initiatives will occur as expected or at all. Trends may not continue or may reverse. Opinions on trends and themes represent Blackstone's current market environment view as of the stated date only and there is no assurance they will come to pass.

Other Risk Factors

Capitalised terms herein not defined in this document have the meaning ascribed to them in the latest visa stamped version of the prospectus of ECRED Feeder SICAV.

The purchase of Shares in ECRED Feeder SICAV entails a high degree of risk and is suitable for sophisticated investors for whom an investment in ECRED Feeder SICAV does not represent a complete investment program, and who fully understand ECRED Feeder SICAV's strategy, characteristics and risks, including the use of borrowings to leverage Investments, and are capable of bearing the risk of an investment in ECRED Feeder SICAV. There are no guarantees or assurances regarding the achievement of investment objectives or performance. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose some or all of your investment.

The attention of potential investors is drawn to the risks to which any investor is exposed by investing in ECRED Feeder SICAV. Potential investors should pay particular attention to the risks described in the dedicated section of ECRED Feeder SICAV Prospectus. In making an investment decision, investors must rely on their own examination of ECRED Feeder SICAV and the terms of the offering, including the merits and risks involved. Potential investors should not construe the contents of this Prospectus as legal, tax, investment or accounting advice.

The following is a summary description of the principal risks of investing in ECRED Feeder SICAV. The order of the below risk factors does not indicate the significance of any particular risk factor. The comprehensive list of risks to which ECRED Feeder SICAV is subject to is available in the Prospectus.

For the purpose of the below, references to "ECRED" are references to ECRED Feeder SICAV and its sub-funds,

ECRED Master FCP, the ECRED Aggregator and the Parallel Entities (if any) (each as defined in the Prospectus).

Lack of Liquidity. There is no current public trading market for the Shares, and the Sponsor does not expect that such a market will ever develop. Therefore, redemption of Shares by ECRED Feeder SICAV will likely be the only way for you to dispose of your Shares. ECRED Feeder SICAV expects to redeem Shares at a price equal to the applicable NAV as of the Redemption Date and not based on the price at which you initially purchased your Shares. Subject to limited exceptions, Shares redeemed within one year of the date of issuance will be redeemed at 98% of the applicable NAV as of the Redemption Date. As a result, you may receive less than the price you paid for your Shares when you sell them to ECRED Feeder SICAV pursuant to ECRED Feeder SICAV's redemption program.

The aggregate NAV of total redemptions (on an aggregate basis (without duplication) across ECRED, but excluding any Early Redemption Deduction applicable to the redeemed Shares) is generally limited to 2% of aggregate NAV per calendar month of all Parallel Entities and the ECRED Aggregator (measured using the aggregate NAV as of the end of the immediately preceding month) and 5% of such aggregate NAV per calendar quarter (measured using the average of such aggregate NAV as of the end of the immediately preceding three months), except in the event of exceptional circumstances described below.

In exceptional circumstances and not on a systematic basis, ECRED Feeder SICAV may make exceptions to, modify or suspend, in whole or in part, the redemption program if in the Investment Manager's reasonable judgment it deems such action to be in ECRED's best interest and the best interest of ECRED's investors, such as when redemptions of Shares would place an undue burden on ECRED's liquidity, adversely affect ECRED's operations, risk having an adverse impact on ECRED that would outweigh the benefit of redemptions of Shares or as a result of legal or regulatory changes. Material modifications, including any amendment to the 2% monthly or 5% quarterly limitations on redemptions and suspensions of the redemption program will be promptly disclosed to Shareholders on ECRED's website. If the redemption program is suspended, the Investment Manager will be required to evaluate on a monthly basis whether the continued suspension of the redemption program is in ECRED's best interest and the best interest of ECRED's investors.

The vast majority of ECRED's assets are expected to consist of Investments that cannot generally be readily liquidated without impacting ECRED's ability to realize full value upon their disposition. Therefore, ECRED may not always have a sufficient amount of cash to immediately satisfy Redemption Requests. As a result, your ability to have your Shares redeemed by ECRED may be limited and at times you may not be able to liquidate your investment.

Conflicts of Interest. ECRED Feeder SICAV is subject to certain conflicts of interest arising out of ECRED's relationship with Blackstone, including the Sponsor and its affiliates. Members of the Board of Directors are also executives of Blackstone and/or one or more of its affiliates. There is no guarantee that the policies and procedures adopted by ECRED Feeder SICAV, the terms of its Articles of Incorporation, the terms and conditions of the Investment Management Agreement, that the policies and procedures adopted by the Board of Directors, the Sponsor, the AIFM, Blackstone and their affiliates, will enable ECRED Feeder SICAV to identify, adequately address or mitigate these conflicts of interest, or that the Sponsor will identify or resolve all conflicts of interest in a manner that is favorable to ECRED Feeder SICAV.

Currency Risks. A portion of ECRED Feeder SICAV's assets may be denominated in a currency that differs from the functional currency of ECRED Feeder SICAV or an investor's functional currency. Consequently, the return realized on any investment by such investor may be adversely affected by movements in currency exchange rates over the holding period of such investment and the life of ECRED Feeder SICAV generally, costs of conversion and exchange control regulations in such jurisdiction, in addition to the performance of the investment itself. Shareholders holding shares with a functional currency other than Euro acknowledge that they are exposed to fluctuations of the Euro foreign exchange rate and/or hedging costs, which may lead to variations on the amount to be distributed. This risk is not considered in the indicator shown above. Fund charges will be incurred in multiple currencies, meaning that payments may increase or decrease as a result of currency exchange fluctuations.

Other Risk Factors (cont'd)

Highly Competitive Market for Investment Opportunities. The activity of identifying, completing and realizing attractive investments is highly competitive, and involves a high degree of uncertainty. There can be no assurance that ECRED Feeder SICAV will be able to locate, consummate and exit investments that satisfy its objectives or realize upon their values or that ECRED Feeder SICAV will be able to fully invest its Shareholders' investment. There is no guarantee that investment opportunities will be allocated to ECRED Feeder SICAV and or that the activities of Blackstone's other funds having similar or overlapping investment objectives will not adversely affect the interests of ECRED Feeder SICAV.

Other Blackstone and Blackstone Credit & Insurance Clients; Allocation of Investment Opportunities. Certain inherent conflicts of interest arise from the fact that the Sponsor, Blackstone Credit & Insurance and Blackstone provide investment management, advisory and sub-advisory services to ECRED Feeder SICAV and Other Clients. Blackstone Credit & Insurance and/or Blackstone may give advice to, and recommend securities for, Other Clients that may differ from advice given to, or securities recommended or bought for, ECRED Feeder SICAV, even though their investment objectives may be the same as or similar to those of ECRED Feeder SICAV. While Blackstone Credit & Insurance will seek to manage potential conflicts of interest in a fair and equitable manner, the portfolio strategies employed by Blackstone Credit & Insurance and Blackstone in managing their respective Other Clients are likely to conflict from time to time with the transactions and strategies employed by the Sponsor in managing ECRED Feeder SICAV and may affect the prices and availability of the securities and instruments in which ECRED Feeder SICAV invests.

Recent Market Events Risk. Local, regional, or global events such as war (e.g., Russia/Ukraine), acts of terrorism, public health issues like pandemics or epidemics (e.g., COVID-19), recession, or other economic, political and global macro factors and events could lead to a substantial economic downturn or recession in the U.S. and global economies and have a significant impact on the Fund and its investments. The recovery from such downturns is uncertain and may last for an extended period of time or result in significant volatility, and many of the risks discussed herein associated with an investment in the Fund may be increased.

Reliance on Key Management Personnel. The success of the Fund will depend, in large part, upon the skill and expertise of certain Blackstone professionals. In the event of the death, disability or departure of any key Blackstone professionals, the business and the performance of the Fund may be therefore adversely affected. Some Blackstone professionals may have other responsibilities, including senior management responsibilities, throughout Blackstone and, therefore, conflicts are expected to arise in the allocation of such personnel's time (including as a result of such personnel deriving financial benefit from these other activities, including fees and performance-based compensation).

Risk of Capital Loss and No Assurance of Investment Return. ECRED offers no capital guarantee. This investment involves a significant risk of capital loss and should only be made if an investor can afford the loss of its entire investment. There are no guarantees or assurances regarding the achievement of investment objectives or performance. There may be little or no near-term cash flow available to the Shareholders from ECRED Feeder SICAV, and there can be no assurance that ECRED Feeder SICAV will make any distribution to the Shareholders. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed,

you could lose some or all of your investment. A fund's performance may be volatile. An investment should only be considered by sophisticated investors who can afford to lose all or a substantial amount of their investment. A fund's fees and expenses may offset or exceed its profits. In considering any investment performance information contained in the document and related materials ("the Materials"), recipients should bear in mind that past performance does not predict future returns. Investors should draw no conclusions from the performance of any other investments of Blackstone Credit & Insurance or Blackstone and should not expect to achieve similar results.

Sustainability Risks. The Fund may be exposed to an environmental, social or governance event or condition that, if it occurs, could have a material adverse effect, actual or potential, on the value of the investments made by the Fund. Sustainability risks are assessed into investment decisions relating to the Fund.

Target Allocations. There is no guarantee that such strategies and targets will be achieved and any particular investment may not meet the target criteria.

Use of Leverage. The Fund intends to borrow money. If returns on such investment exceed the costs of borrowing, investor returns will be enhanced. However, if returns do not exceed the costs of borrowing, Fund performance will be depressed. This includes the potential for the Fund to suffer greater losses than it otherwise would have. The effect of leverage is that any losses will be magnified. The use of leverage involves a high degree of financial risk and will increase ECRED's exposure to adverse economic factors such as rising interest rates, downturns in the economy or deteriorations in the condition of the Investments.

This leverage may also subject ECRED and its Investments to restrictive financial and operating covenants, which may limit flexibility in responding to changing business and economic conditions. For example, leveraged entities may be subject to restrictions on making interest payments and other distributions.

Valuations Matters - The valuation methodologies used to value any investment in which ECRED Feeder SICAV invests will involve subjective judgments and projections and may not be accurate. Valuation methodologies are based on assumptions and opinions about future events, which may or may not turn out to be correct. Valuation methodologies may permit reliance on a prior period valuation of particular Investments. Ultimate realization of the value of an asset depends to a great extent on economic, market and other conditions beyond Blackstone Credit & Insurance's control. Accordingly, there is no guarantee that the fair value as determined by the AIFM (with the assistance of Blackstone Credit & Insurance) at any given point in time will represent the value that will be realized by ECRED Feeder SICAV on the eventual disposition of the Investment or that would, in fact, be realized upon an immediate disposition of the Investment.

Important Disclosure Information

This document (together with any attachments, appendices, and related materials, the "Materials") is provided on a confidential basis for informational due diligence purpose only and is not, and may not be relied on in any manner as legal, tax, investment, accounting or other advice or as an offer to sell, or a solicitation of an offer to buy, any security or instrument in or to participate in any trading strategy with any Blackstone fund account or other investment vehicle, nor shall it or the fact of its distribution form the basis of, or be relied on in connection with, any contract or investment decision. All information is as of March 31, 2026, unless otherwise indicated and may change materially in the future.

Aggregated Returns. The calculation of combined or composite net IRR/net returns takes the aggregate limited partner cash flows by actual date from inception of the strategy through the current quarter end and uses the terminal value (including unrealized investments) as of the current quarter end to comprise an overall return for the strategy. The actual realized returns on the unrealized investments used in this calculation may differ materially from the returns indicated herein. In addition, the actual returns of each Blackstone fund, account or investment vehicle included in such combined or composite returns may be higher or lower than the Aggregated Returns presented. Furthermore, no limited partner has necessarily achieved the combined or composite returns presented in such performance information, because a limited partner's participation in the applicable funds, accounts and/or investment vehicles may have varied. See "Performance Calculation" below.

Awards, Honors or Other Rankings. Any awards, honors, or other references or rankings referred to herein with respect to Blackstone and / or any investment professional are provided solely for informational purposes and are not intended to be, nor should they be construed as or relied upon as, any indication of future performance or other future activity. Any such awards, honors, or other references or rankings may have been based on subjective criteria and may have been based on a limited universe of participants, and there are other awards, honors, or other references.

Blackstone Proprietary Data. Certain information and data provided herein is based on Blackstone proprietary knowledge and data. Portfolio companies may provide proprietary market data to Blackstone, including about local market supply and demand conditions, current market rents and operating expenses, capital expenditures, and valuations for multiple assets. Such proprietary market data is used by Blackstone to evaluate market trends as well as to underwrite potential and existing investments. While Blackstone currently believes that such information is reliable for purposes used herein, it is subject to change, and reflects Blackstone's opinion as to whether the amount, nature and quality of the data is sufficient for the applicable conclusion, and no representations are made as to the accuracy or completeness thereof.

Case Studies. The selected investment examples, case studies and/or transaction summaries presented or referred to herein may not be representative of all transactions of a given type or of investments generally and are intended to be illustrative of the types of investments that have been made or may be made by ECRED in employing ECRED's investment strategies. It should not be assumed that ECRED will make equally successful or comparable investments in the future. Moreover, the actual investments to be made by ECRED or any other future fund will be made under different market conditions from those investments presented or referenced in the Materials and may differ substantially from the investments presented herein as a result of various factors. Prospective investors should also note that the selected investment examples, case studies and/or transaction summaries presented or referred to herein have involved Blackstone professionals who will be involved with the management and operations of ECRED as well as other Blackstone personnel who will not be involved in the management and operations of ECRED. Certain investment examples described herein may be owned by investment vehicles managed by Blackstone and by certain other third-party equity partners, and in connection therewith Blackstone may own less than a majority of the equity securities of such investment. Further investment details are available upon request.

Feeder Fund Structures. Blackstone and/or a third-party manager may form a feeder fund vehicle (a "Feeder Fund") that will invest all or substantially all of its assets in a master fund that is managed by Blackstone (the "Underlying Blackstone Fund"). A feeder fund structure is typically put in place for legal and commercial purposes. In general, investors will hold their interests at the level of the Feeder Fund and fund costs and expenses of the overall master-feeder structure will ultimately be borne by investors on a pro-rated basis as applicable. Investors in the Feeder Fund are subject to additional costs and risks in addition to those costs and risks borne by investors who invest directly into the Underlying Blackstone Fund. Specifically, in addition to bearing a share of the costs of the Feeder Fund's investment in the Underlying Blackstone Fund (including the Underlying Blackstone Fund's expenses, fees, and performance allocations payable to Blackstone), investors in the Feeder Fund will also bear additional costs, fees and expenses that are charged at the Feeder Fund level. For example, a third-party manager is expected to charge investors in the Feeder Fund their pro-rata portion of organizational expenses, management fees, and other fees and expenses. As a result, the performance of an investment in the Feeder Fund may be lower, possibly materially, than an investment made directly in the Underlying Blackstone Fund. In addition, a variety of other factors may contribute to differences between the performance of the Feeder Fund and the Underlying Blackstone Fund, including, but not limited to, the size of the Feeder Fund's cash reserves and the differences in timing of the cash flows. The manager of the Feeder Fund also has discretion to manage expenses and cash reserves, which may cause an adverse difference in performance between the Feeder Fund and the Underlying Blackstone Fund. If performance is shown herein, such performance reflects that of investors who invest directly in an Underlying Blackstone Fund and is net of the respective Underlying Blackstone Fund's management fee, carried interest and other fees and expenses. In instances where inception-to-date performance is presented, the Feeder Fund may have different inception-to-date performance than the Underlying Blackstone Fund because the Feeder Fund may invest after the inception of the Underlying Blackstone Fund.

Forward-Looking Statements. Certain forward-looking statements, including financial projections and estimates and statements regarding future performance, are inherently uncertain and there may be important factors that could cause actual outcomes or results to differ materially from those indicated in such statements. Blackstone undertakes no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

Future returns subject to tax. Any future returns will be subject to tax which depends on the personal tax situation of each investor, which may change over time.

Images. The Materials contain select images of certain investments that are provided for illustrative purposes only and may not be representative of an entire asset or portfolio or of ECRED's entire portfolio. Such images may be digital renderings of investments rather than actual photos.

Index Comparison. The volatility and risk profile of the indices presented is likely to be materially different from that of ECRED. In addition, the index employs different investment guidelines and criteria than ECRED and do not employ leverage; as a result, the holdings in ECRED and the liquidity of such holdings may differ significantly from the securities that comprise the index. The index is not subject to fees or expenses and it may not be possible to invest in the index. The performance of the index may not necessarily have been selected to represent an appropriate benchmark to compare to ECRED's performance, but rather is disclosed to allow for comparison of ECRED's performance to that of a well-known and widely recognized index. A summary of the investment guidelines for the indices presented are available upon request. In the case of equity indices, performance of the indices reflects the reinvestment of dividends.

Logos. The logos presented herein were not selected based on performance of the applicable company or sponsor to which they pertain. Logos were selected to illustrate managers and/or portfolio companies that are indicative representations of the thesis, theme or trend discussed on the slide(s) where they appear. In Blackstone's opinion, the logos selected were generally the most applicable examples of the given thesis, theme or trend discussed on the relevant slide(s). All rights to the trademarks and/or logos presented herein belong to their respective owners and Blackstone's use hereof does not imply an affiliation with, or endorsement by, the owners of these logos.

MiFID Terms of Business. For investors in the European Economic Area please refer to <https://www.blackstone.com/european-overview/> to find the MiFID Terms of Business which may be applicable to you.

No Benchmark. ECRD is not managed in reference to any benchmark index.

Opinions. Opinions expressed reflect the current opinions of Blackstone as of the date appearing in this document only and are based on Blackstone's opinions of the current market environment, which is subject to change. Certain information contained in this document discusses general market activity, industry or sector trends, or other broad-based economic, market or political conditions and should not be construed as research or investment advice.

Sustainability. Sustainability-related initiatives ("Sustainability initiatives"), except to the extent they represent a Fund-specific promoted characteristic as described in the Fund's Offering Documents or other applicable governing documents ("Blackstone Sustainability Initiatives") described in these materials related to Blackstone's portfolio, portfolio companies, and investments (collectively, "portfolio companies") are aspirational and not guarantees or promises that all or any such initiatives will be achieved. Statements about Blackstone Sustainability Initiatives or practices related to portfolio companies do not apply in every instance and depend on factors including, but not limited to, the relevance or implementation status of a Sustainability initiative to or within the portfolio company; the nature and/or extent of investment in, ownership of, control or influence exercised by Blackstone with respect to the portfolio company; and other factors as determined by investment teams, corporate groups, asset management teams, portfolio operations teams, companies, investments, and/or businesses on a case-by-case basis. In particular, the Blackstone Sustainability Initiatives or practices described in these Materials are less applicable to or not implemented at all with respect to Blackstone's public markets investing businesses, specifically, Credit and Insurance, Multi-Asset Investing and Harvest. In addition, Blackstone will not pursue Sustainability initiatives for every portfolio company, except as explicitly stated in the Fund's Offering Documents or other applicable governing documents. Where Blackstone Sustainability Initiatives are pursued for portfolio companies, there is no guarantee that Blackstone will successfully create positive sustainability-related results, enhance long-term shareholder value and/or achieve financial returns. There can be no assurance that any of the Sustainability initiatives described in these Materials will exist in the future, will be completed as expected or at all, or will apply to or be implemented uniformly across Blackstone business units or across all portfolio companies within a particular Blackstone business unit. Blackstone may select or reject portfolio companies or investments on the basis of sustainability-related investment risks, consistent with Blackstone's objectives to seek to maximize risk adjusted returns, and this may cause Blackstone's funds and/or portfolio companies to perform differently relative to other sponsors' funds and/or portfolio companies

that do not consider sustainability-related investment risks at all or that evaluate sustainability-related factors and investment risks in a different manner. Any selected investment examples, case studies, and/or transaction summaries presented or referred to in these Materials are provided for illustrative purposes only and should not be viewed as representative of the present or future success of Sustainability initiatives implemented by Blackstone or its portfolio companies or of a given type of Sustainability initiatives generally. There can be no assurance that Blackstone's investment objectives for any fund will be achieved or that its investment programs will be successful. There can be no assurance that Sustainability initiatives will continue or be successful. Past performance is not a guarantee of future results and does not predict future returns. With respect to references within this Material to "material" sustainability-related factors or considerations, for the purposes of this document, "material" represents those sustainability-related factors or considerations that Blackstone determines have - or have the potential to have - a material impact on an investment's going-forward ability to create, preserve or erode economic value for the firm and its stakeholders. The word "material" as used in such context should not necessarily be equated to or taken as a representation about the "materiality" of such sustainability-related factors under the US federal securities laws, the EU SFDR, or any similar legal or regulatory regime globally. While Blackstone believes sustainability-related factors can enhance long-term value, Blackstone does not pursue an ESG or sustainability-based investment strategy or limit its investments to those that meet specific sustainability-related criteria or standards, except with respect to products or strategies that are explicitly designated as doing so in their Offering Documents or other applicable governing documents. Any such sustainability-related factors do not qualify Blackstone's objectives to seek to maximize risk adjusted returns. Some, or all, of the Blackstone Sustainability Initiatives described in these materials may not apply to the Fund's investments and none are binding aspects of the management of the Fund or its assets (except as may be identified in the Fund's Offering Documents). See "SFDR" below for further details.

Sustainability-related Ratings, Awards or Scores. Any sustainability-related ratings, awards, honors, scores, or other rankings ("Sustainability Ratings") referred to herein are provided solely for informational purposes and are not intended to be, nor should they be construed or relied upon as, any indication of future ratings, performance, commitment or other future activity. Sustainability Ratings may, in some cases, be based on external assessments, subjective criteria or a limited universe of participants. Unless otherwise stated, Sustainability Ratings should not be considered representative of Blackstone activities, investments or investments of a given type or a promoted feature of any product (or otherwise used to inform a decision to invest).

Important Disclosure Information (cont'd)

SFDR. Each of Blackstone European Private Credit Fund SICAV – ECRED Feeder SICAV and Blackstone Crédit Privé Europe SC (as used in this paragraph, together, the “Fund”) promotes environmental and/or social characteristics as identified in the Fund’s Offering Documents. The Fund may make one or more “sustainable investments” within the meaning of Article 2(17) of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 (the “SFDR”), but does not commit to make any such investment. As a result, the Fund is currently classified as an Article 8 financial product under the SFDR. Note, there is currently no formal acknowledgement of the classification by the relevant EEA competent authorities and there is no guarantee that any regulator will classify the Fund as such. The environmental and social characteristic promoted by the Fund is engagement with the aim of achieving a minimum environmental, social, sustainability profile of companies in which the Fund invests where the investment is a Private Credit Investment (as defined in the Offering Documents) by reference to a proprietary ESG maturity scoring tool (the “ESG Maturity Indicator”). There is no minimum ESG Maturity Indicator score which must be achieved in order for an investment to be made by the Fund. The Fund may invest in companies which are judged to have a low ESG maturity. The score will be used to assist in identifying potential ESG engagement opportunities.

A decision to invest should take into account the objectives and characteristics of the Fund as set out in more detail in the Fund’s Offering Documents, which can be accessed along with further information at www.ecred.com.

Third Party Information. Certain information contained in the Materials has been obtained from sources outside Blackstone, which in certain cases have not been updated through the date hereof. While such information is believed to be reliable for purposes used herein, no representations are made as to the accuracy or completeness thereof and none of Blackstone, its funds, nor any of their affiliates takes any responsibility for, and has not independently verified, any such information.

Trends. There can be no assurances that any of the trends described herein will continue or will not reverse. Past events and trends do not imply, predict or guarantee, and are not necessarily indicative of, future events or results.
