Past performance is not necessarily indicative of future results. Your capital is at risk and you may lose some or all of your investment. There can be no assurance that any Blackstone fund or investment will achieve its objectives or avoid substantial losses or that any Blackstone investment or strategy will find any opportunities relating to the above themes. Currency fluctuations may have an adverse effect on the value, price, income or costs of the product which may increase or decrease as a result of changes in exchange rates. For the avoidance of doubt, if you make a decision to invest, you will be buying shares in ECRED and you will not be investing directly in the underlying assets.

Note: The inception date for Class I and Class A is October 3, 2022. All figures in this report are as of January 31, 2023, unless otherwise indicated. The figures herein represent preliminary, unaudited results, which are subject to further review and adjustment. Please refer to the Prospectus for further information. Key Risk Factors

Risk Indicator

Capitalised terms herein not defined in this document have the meaning ascribed to them in the latest visa stamped version of the prospectus of ECRE D Feeder SICAV.

Under the packaged retail and insurance-based investment products (PRIIPs) Regulation, we have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions could impact our capacity to pay you.

There is no specific recommended holding period for the product. The actual risk can vary significantly and you may get back less. You may not be able to sell your Shares in ECRE D Feeder SICAV easily or you may have to sell them at a price that significantly impacts on how much you get back. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The purchase of Shares in ECRE D Feeder SICAV entails a high degree of risk and is suitable for sophisticated investors for whom an investment in ECRE D Feeder SICAV does not represent a complete investment program, and who fully understand ECRE D Feeder SICAV's strategy, characteristics and risks, including the use of borrowings to leverage Investments, and are capable of bearing the risk of an investment in ECRE D Feeder SICAV. There are no guarantees or assurances regarding the achievement of investment objectives or performance. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose some or all of your investment.

The attention of potential investors is drawn to the risks to which any investor is exposed by investing in the Fund. Potential investors should pay particular attention to the risks described in the dedicated section of the Fund Prospectus / Offering Memorandum and Key Information Document (KID). In making an investment decision, investors must rely on their own examination of ECRE D Feeder SICAV and the terms of the offering, including the merits and risks involved. Potential investors should not construe the contents of this Prospectus as legal, tax, investment or accounting advice.

The following is a summary description of the principal risks of investing in ECRE D Feeder SICAV. The order of the below risk factors does not indicate the significance of any

particular risk factor. The comprehensive list of risks to which ECRE D Feeder SICAV is subject to is available in the Prospectus.

For the purpose of the below, references to "ECRED" are references to ECRE D Feeder SICAV and its sub-funds, ECRE D Master FCP, the ECRE D Aggregator and the Parallel Entities (if any) (each as defined in the Prospectus).

Risk of Capital Loss and No Assurance of Investment Return. ECRE D offers no capital protection guarantee. This investment involves a significant risk of capital loss and should only be made if an investor can afford the loss of its entire investment. There are no guarantees or assurances regarding the achievement of investment objectives or performance. There may be little or no near-term cash flow available to the Shareholders from ECRE D Feeder SICAV, and there can be no assurance that ECRE D Feeder SICAV will make any distribution to the Shareholders. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose some or all of your investment. A fund's performance may be volatile. An investment should only be considered by sophisticated investors who can afford to lose all or a substantial amount of their investment. A fund's fees and expenses may offset or exceed its profits. In considering any investment performance information contained in the document and related materials ("the Materials"), recipients should bear in mind that past performance is not necessarily indicative of future results. Investors should draw no conclusions from the performance of any other investments of Blackstone Credit or Blackstone and should not expect to achieve similar results.

Lack of Liquidity. There is no current public trading market for the Shares, and the Sponsor does not expect that such a market will ever develop. Therefore, redemption of Shares by ECRE D Feeder SICAV will likely be the only way for you to dispose of your Shares. ECRE D Feeder SICAV expects to redeem Shares at a price equal to the applicable NAV as of the Redemption Date and not based on the price at which you initially purchased your Shares. Subject to limited exceptions, Shares redeemed within one year of the date of issuance will be redeemed at 98% of the applicable NAV as of the Redemption Date. As a result, you may receive less than the price you paid for your Shares when you sell them to ECRE D Feeder SICAV pursuant to ECRE D Feeder SICAV's redemption program.

Key Risk Factors (cont)

The aggregate NAV of total redemptions (on an aggregate basis (without duplication) across ECRED, but excluding any Early Redemption Deduction applicable to the redeemed Shares) is generally limited to 2% of aggregate NAV per calendar month of all Parallel Entities and the ECRED Aggregator (measured using the aggregate NAV as of the end of the immediately preceding month) and 5% of such aggregate NAV per calendar quarter (measured using the average of such aggregate NAV as of the end of the immediately preceding three months), except in the event of exceptional circumstances described below.

In exceptional circumstances and not on a systematic basis, ECRED Feeder SICAV may make exceptions to, modify or suspend, in whole or in part, the redemption program if in the Investment Manager's reasonable judgment it deems such action to be in ECRED's best interest and the best interest of ECRED's investors, such as when redemptions of Shares would place an undue burden on ECRED's liquidity, adversely affect ECRED's operations, risk having an adverse impact on ECRED that would outweigh the benefit of redemptions of Shares or as a result of legal or regulatory changes. Material modifications, including any amendment to the 2% monthly or 5% quarterly limitations on redemptions and suspensions of the redemption program will be promptly disclosed to Shareholders on ECRED's website. If the redemption program is suspended, the Investment Manager will be required to evaluate on a monthly basis whether the continued suspension of the redemption program is in ECRED's best interest and the best interest of ECRED's investors.

The vast majority of ECRED's assets are expected to consist of Investments that cannot generally be readily liquidated without impacting ECRED's ability to realize full value upon their disposition. Therefore, ECRED may not always have a sufficient amount of cash to immediately satisfy Redemption Requests. As a result, your ability to have your Shares redeemed by ECRED may be limited and at times you may not be able to liquidate your investment.

Conflicts of Interest. ECRED Feeder SICAV is subject to certain conflicts of interest arising out of ECRED's relationship with Blackstone, including the Sponsor and its affiliates. Members of the Board of Directors are also executives of Blackstone and/or one or more of its affiliates. There is no guarantee that the policies and procedures adopted by ECRED Feeder SICAV, the terms of its Articles of Incorporation, the terms and conditions of the Investment Management Agreement, that the policies and procedures adopted by the Board of Directors, the Sponsor, the AIFM, Blackstone and their affiliates, will enable ECRED Feeder SICAV to identify, adequately address or mitigate these conflicts of interest, or that the Sponsor will identify or resolve all conflicts of interest in a manner that is favorable to ECRED Feeder SICAV.

Other Blackstone and Blackstone Credit Clients; Allocation of Investment Opportunities. Certain inherent conflicts of interest arise from the fact that the Sponsor, Blackstone Credit and Blackstone provide investment management, advisory and sub-advisory services to ECRED Feeder SICAV and Other Clients. Blackstone Credit and/or Blackstone may give advice to, and recommend securities for, Other Clients that may differ from advice given to, or securities recommended or bought for, ECRED Feeder SICAV, even though their investment objectives may be the same as or similar to those of ECRED Feeder SICAV. While Blackstone Credit will seek to manage potential conflicts of interest in a fair and equitable manner, the portfolio strategies employed by Blackstone Credit and Blackstone in managing their respective Other Clients are likely to conflict from time to time with the transactions and strategies employed by the Sponsor in managing ECRED Feeder SICAV and may affect the prices and availability of the securities and instruments in which ECRED Feeder SICAV invests.

Epidemics/Pandemics. Certain countries have been susceptible to epidemics which may be designated as pandemics by world health authorities, most recently COVID-19. The outbreak of such epidemics, together with any resulting restrictions on travel or quarantines imposed, has had and will continue to have a negative impact on the economy and business activity globally (including in the countries in which ECRED Feeder SICAV invests), and thereby is expected to adversely affect the performance of ECRED Feeder SICAV's Investments. Furthermore, the rapid development of epidemics could preclude prediction as to their ultimate adverse impact on economic and market conditions, and, as a result, presents material uncertainty and risk with respect to ECRED Feeder SICAV and the performance of its Investments.

Currency Risks. A portion of ECRED Feeder SICAV's assets may be denominated in a currency that differs from the functional currency of ECRED Feeder SICAV or an investor's functional currency. Consequently, the return realized on any investment by such investor may be adversely affected by movements in currency exchange rates over the holding period of such investment and the life of ECRED Feeder SICAV generally, costs of conversion and exchange control regulations in such jurisdiction, in addition to the performance of the investment itself. Shareholders holding shares with a functional currency other than Euro acknowledge that they are exposed to fluctuations of the Euro foreign exchange rate and/or hedging costs, which may lead to variations on the amount to be distributed. This risk is not considered in the indicator shown above. Fund charges will be incurred in multiple currencies, meaning that payments may increase or decrease as a result of currency exchange fluctuations.

Key Risk Factors (cont)**Highly Competitive Market for Investment Opportunities.**

The activity of identifying, completing and realizing attractive investments is highly competitive, and involves a high degree of uncertainty. There can be no assurance that ECRED Feeder SICAV will be able to locate, consummate and exit investments that satisfy its objectives or realize upon their values or that ECRED Feeder SICAV will be able to fully invest its Shareholders' investment. There is no guarantee that investment opportunities will be allocated to ECRED Feeder SICAV and or that the activities of Blackstone's other funds having similar or overlapping investment objectives will not adversely affect the interests of ECRED Feeder SICAV.

Valuations Matters - The valuation methodologies used to value any investment in which ECRED Feeder SICAV invests will involve subjective judgments and estimates and may not be accurate. Valuation methodologies are based on assumptions and opinions about future events, which may or may not turn out to be correct. Valuation methodologies may permit reliance on a prior period valuation of particular Investments. Ultimate realization of the value of an asset depends to a great extent on economic, market and other conditions beyond Blackstone Credit's control. Accordingly, there is no guarantee that the fair value as determined by the AIFM (with the assistance of Blackstone Credit) at any given point in time will represent the value that will be realized by ECRED Feeder SICAV on the eventual disposition of the Investment or that would, in fact, be realized upon an immediate disposition of the Investment.

Use of Leverage. The Fund intends to borrow money. If returns on such investment exceed the costs of borrowing, investor returns will be enhanced. However, if returns do not exceed the costs of borrowing, Fund performance will be depressed. This includes the potential for the Fund to suffer greater losses than it otherwise would have. The effect of leverage is that any losses will be magnified. The use of leverage involves a high degree of financial risk and will increase ECRED's exposure to adverse economic factors such as rising interest rates, downturns in the economy or deteriorations in the condition of the Investments.

This leverage may also subject ECRED and its Investments to restrictive financial and operating covenants, which may limit flexibility in responding to changing business and economic conditions. For example, leveraged entities may be subject to restrictions on making interest payments and other distributions.

Reliance on Key Management Personnel. The success of the Fund will depend, in large part, upon the skill and expertise of certain Blackstone professionals. In the event of the death, disability or departure of any key Blackstone professionals, the business and the performance of the

Fund may be therefore adversely affected. Some Blackstone professionals may have other responsibilities, including senior management responsibilities, throughout Blackstone and, therefore, conflicts are expected to arise in the allocation of such personnel's time (including as a result of such personnel deriving financial benefit from these other activities, including fees and performance-based compensation).

Limited Operating History: Relation to Prior Investment Results. ECRED Feeder SICAV has not commenced operations and therefore has no operating history upon which prospective investors may evaluate its performance. Although Blackstone Credit has made investments through certain of its funds and separately managed accounts that would have been within the investment objective of ECRED Feeder SICAV, ECRED Feeder SICAV will make Investments under different geographic, market, regulatory and economic conditions than those prevalent when the previous investments were made. The size and type of Investments to be made by ECRED Feeder SICAV could differ from prior Blackstone investments (including prior Blackstone credit investments). Where provided, as part of the Prospectus or otherwise, the prior investment results of Blackstone Credit are provided for illustrative purposes only and not to imply that such results will be obtained in the future. Although Blackstone's investment professionals have considerable prior experience in private originated and privately negotiated first lien, senior loan and other debt investments, the past investment performance of Blackstone Credit (and investment vehicles sponsored or managed by Blackstone Credit) is not necessarily indicative of ECRED Feeder SICAV's future results, and there can be no assurance that ECRED Feeder SICAV will achieve comparable results, be able to effectively implement its investment strategy, achieve its investment or asset allocation objectives, be profitable or avoid substantial losses.

Key Risk Factors (cont)

Russian Invasion of Ukraine. On February 24, 2022 Russian troops began a full scale invasion of Ukraine and, as of the date of this Material, the countries remain in active armed conflict. Around the same time, the United States, the United Kingdom, the European Union, and several other nations announced a broad array of new or expanded sanctions, export controls, and other measures against Russia, Russia backed separatist regions in Ukraine, and certain banks, companies, government officials, and other individuals in Russia and Belarus. The ongoing conflict and the rapidly evolving measures in response could be expected to have a negative impact on the economy and business activity globally (including in the countries in which ECRED Feeder SICAV invests), and therefore could adversely affect the performance of the ECRED Feeder SICAV's Investments. The severity and duration of the conflict and its impact on global economic and market conditions are impossible to predict, and as a result, could present material uncertainty and risk with respect to ECRED Feeder SICAV and the performance of its investments and operations, and the ability of ECRED Feeder SICAV to achieve its investment objectives. Similar risks will exist to the extent that any portfolio entities, service providers, vendors or certain other parties have material operations or assets in Russia, Ukraine, Belarus, or the immediate surrounding areas.

Sustainability Risks. The Fund may be exposed to an environmental, social or governance event or condition that, if it occurs, could have a material adverse effect, actual or potential, on the value of the investments made by the Fund. Sustainability risks are assessed into investment decisions relating to the Fund.

Target Allocations. There is no guarantee that such strategies and targets will be achieved and any particular investment may not meet the target criteria.

Important Disclosure Information

All information is as of January 31, 2023, unless otherwise indicated and may change materially in the future.

Blackstone Proprietary Data. Certain information and data provided herein is based on Blackstone proprietary knowledge and data. Case Studies. The selected investment examples, case studies and/or transaction summaries presented or referred to herein may not be representative of all transactions of a given type or of investments generally and are intended to be illustrative of the types of investments that have been made or may be made by a Fund in employing such Fund's investment strategies. It should not be assumed that a Fund will make equally successful or comparable investments in the future. Moreover, the actual investments to be made by a Fund or any other future fund will be made under different market conditions from those investments presented or referenced in the Materials and may differ substantially from the investments presented herein as a result of various factors. Prospective investors should also note that the selected investment examples, case studies and/or transaction summaries presented or referred to herein have involved Blackstone professionals who will be involved with the management and operations of a Fund as well as other Blackstone personnel who will not be involved in the management and operations of such Fund. Certain investment examples described herein may be owned by investment vehicles managed by Blackstone and by certain other third-party equity partners, and in connection therewith Blackstone may own less than a majority of the equity securities of such investment. Further investment details are available upon request.

Diversification; Potential Lack Thereof. Diversification is not a guarantee of either a return or protection against loss in declining markets. The number of investments which a Fund makes may be limited, which would cause the Fund's investments to be more susceptible to fluctuations in value resulting from adverse economic or business conditions with respect thereto. There is no assurance that any of the Fund's investments will perform well or even return capital; if certain investments perform unfavorably, for the Fund to achieve above-average returns, one or a few of its investments must perform very well. There is no assurance that this will be the case. In addition, certain geographic regions and/or industries in which the Fund is heavily invested may be more adversely affected from economic pressures when compared to other geographic regions and/or industries.

Forward-Looking Statements. Certain forward looking statements, including financial estimates and statements regarding future performance, are inherently uncertain and there may be important factors that could cause actual outcomes or results to differ materially from those indicated in such statements. Blackstone undertakes no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.
